Nebraska vs. Arkansas

POSTGAME QUOTES: Nebraska 5, Arkansas 3

DAVE VAN HORN, Arkansas Head Coach

Opening Statement

"Yeah, just tough loss. I thought that Nebraska they outplayed us, no doubt and we made some mistakes. Some of our mistakes didn't come back to get us as far as runs, but it could've. It was just sloppy on our side. We had some chances to drive in some runs, we didn't do it. Give Nebraska's pitcher credit, they got out of some jams and you know they just outplayed us and they beat us and they've been here all day. Just disappointed with that but we still have another opportunity tomorrow so we just need to regroup and play better."

RE: Confidence Going Into Tomorrow Night

"Well we're always, we've come through most of the time like you said, but we have to play better than we did tonight. We're confident looking forward to tomorrow and you know we'll fight them until the end whether we win or lose. We're gonna play hard tomorrow, I guarantee you we're going to play better."

RE: Brady Slavens Return

"I think it was you know (Kyle) Perry was probably not a great match-up to come off ten days off against left and Schwellenbach's pretty good but I thought Brady took some really good swings. I mean he did a, he just missed some pitches, it's just the way it is. I hope he has a better day tomorrow."

CONNOR NOLAND, Arkansas RHP

RE: Mindset Heading Into Tomorrow Night

"Just come out and play how we know how to play. We've been in this spot before, we've lost a game before, we know how to come out and play and really come out with the right mindset. We're a gritty team and I think you'll see that tomorrow."

RE: Chances Of Pitching Tomorrow

"I think every pitcher on that staff has something left in the tank, we all want to be out there and I think we'll do anything to win the game."

RE: Bouncing Back

"Just establishing the fastball, just getting ahead in counts. Anytime I can take advantage of that and have the hitters off balance is always a plus for me. That's kind of what I focused on today."
