

2024-25
ARKANSAS RAZORBACKS®
BRAND STYLE GUIDE

LOGOS

One Razorback

Primary

The primary full color lockup should be used when no other use of the Running Razorback mark is on a piece of collateral. The Running Razorback mark should not be reduced to a small scale where it is made unrecognizable. If the mark requires use in a small area, use the secondary lockup option.

Secondary

The secondary lockup provides flexibility in use of the mark by removing the Running Razorback mark. This version of the mark should be used when the Razorback logo already appears on a piece of collateral or when space does not allow for the full lockup. The mark can be used in full color or single color, as shown below.

One Razorback

Action

The full horizontal lockup should only be used in combination with an “action” word. In this use, the verb is locked up to the left side of the secondary mark. It can be used in full color or one color. In the case of full color, all words external to the state brackets shall be anthracite. The Running Razorback mark should never be used in combination with this lockup.

Additional sport - or activity - specific marks may be created and approved upon request.

LOGOS

Primary | Running Razorback

The primary Running Razorback always runs forward.
