ARKANSAS QUOTES

Ryan Silverfield, Arkansas Head Coach

Opening Statement ...

"Obviously, the defense came out and gave us an opportunity to be in this game and fought for four quarters. Anytime you have the opportunity to go get three takeaways, the two interceptions, and the fumble recovery, you put yourself in a great position. We've got to limit the explosives, the long run when backed up, and the explosive pass, you've got to be able to continue to find ways to eliminate those. But I thought the defense had a good game plan. I thought they flew around to the football with the right type of level of effort and passion that we want to see from the Razorbacks.

"Offensively, just too many inefficiencies. I think we found ways to be a little bit more successful running the football, but you've got to find ways to be able to sustain drives. I think we find ourselves on 3rd-and-long way too often. And those were 3rd-and-9 plus, we didn't give ourselves a chance to go out there and execute it at a high enough level. Special teams was up and down. But you put it all together - there are some signs of improvement, but not where we need to be. And so we are going to learn from this. We're going to grow from this, and we're going to come back to work tomorrow to find ways to improve."

On the decision to punt at the end of the fourth quarter ...

"Yeah, at the time, I think we were 2-of-11 on third down situations. It was a 4th-and-10 if you don't get it. So, you try to throw it, 1:40 left. All right, we use all three timeouts, that puts it at, let's say, 1:25. They kick a field goal. You're down 10 now with no timeouts, roughly a 1:20 left in the game. So, we need to score a touchdown in that situation and get the onside kick and kick a field goal just to tie it. That's a pretty low percentage.

"I think a 4th-and-10 situation for us, especially the way we're protecting at the end probably was under 5 percent chance to get it. And if you can punt and play defense and stop the run on three downs, which we knew, if we had three downs to stop the run, we get the ball back and at least give ourselves a chance to tie it, and if it was under 20 seconds, we would have gone for two for the win. Obviously, we didn't execute. We didn't stop the run. Had we stopped it and get a chance, then you're looking at one final drive to win the game."

On the run game ...

"I think we've continued to try find ways to be more effective running the ball and trying to be creative in the run game. We had a variety of different running backs. Jasper [Parker] even got a carry. Braylen [Russell] had some good things. I think just going back and saying, 'Okay, what works best for us? What can we hang our hat on?' We did some more pin and pull scheme. Which, it had been five years since we called it as many times as we had, and before that it had been with a guy named Adrian Peterson with the Vikings, since we called it that many times, but I just thought he gave us an advantage with what we needed to do.

"So, a change up on some of the run plays that we hadn't shown, and then I thought the guys did a great job of continuing to sustain blocks on the running backs. Finding one guy's miss, good balance on first contact. But that's something we're going to need to have be more effective at. I mean, teams are sitting there saying, 'We dare you to throw the football,' and line up with these bear fronts, these loaded fronts, and if we can run the ball versus those, then we certainly give ourselves a chance every game."

On approaching Tennessee's game plan with George MacIntyre ...

"In a loss, we clearly didn't find a way. I think they were going to do the play action shots with MacIntyre; he's got a fantastic arm. He can make every throw. I've seen him since high school do those things. Obviously watched all 32 of his previous throws coming into this game. And you sit there and say, 'Man, this guy's one of the most talented quarterbacks in the country,' but he's young. And he's new to playing as a starter. So, it was finding ways to try to affect him. Clearly, he hit a couple of explosive balls. He stood in there and took some hits. But yeah, when you have a chance to get two takeaways, one being a fumble recovery off the quarterback and two interceptions, I felt the plan was in place. But again, we're going to go back and say, 'Well how about the last four or five minutes of the game,' right? Not being able to stop the run when they're backed up on the 5-yard line, and then at the end, not being able to stop it when it mattered most."

On what to learn from a game like this ...

"I think in every game, you've got to look at the good, bad, and the ugly. We know as a program like everyone wants to point out the ugly, and rightfully so. Nobody points it out more and points a finger at anybody than myself about what we need to do to improve. I told the guys, we've got to learn from this. We've got grow from this, and then we're going to come in tomorrow with our chest held up and our heads held high, knowing that there was improvement.

"What we did tonight was not good enough. By no stretch of imagination. There are no moral victories. We have to find ways to win games. But I don't think any Razorback fans out there say, 'Man, these guys don't play really hard. They haven't improved.' And sometimes that improvement may be here ... we're going to find ways to really lean on those positives and what we did well and celebrate those. And the things that we've got to get fixed, man, lean in and find ways to fix them. And have a sense of urgency doing it.

"We're not thinking about next year. We're thinking about right now. We're thinking about tonight. We're thinking about tomorrow morning coming in and finding ways to get better. And that's the one thing about that group in there. I have no doubt in my mind they're going to come out swinging again."

ARKANSAS QUOTES

Cam Settles, Arkansas RB

On the run game...

"I feel like our linemen just executed what they need to execute. They were more physical, blocked lower with pad level, and we just wanted to take pride in making them right and making them making their blocks worth it."

On the impact on Kash Courtney at center...

"Kash Courtney came in and did his job. He came in second half at center, took over that role and just did what he was supposed to do. There was no drop off. He played hard, and I feel like Kash is a dog. We knew that. So that's what we expected when Kash got in."

KJ Jackson, Arkansas QB

On the mentality to start the second half...

"I think in the first half, we had a couple big run plays that were kind of explosive and got drives started. We ended up having some drive killers in those drives. We knew we could run the ball on them. Coming back, Coach [Cramsey], he dialed it up. We went back to some runs that worked in the first half for that first drive, and we were really successful. The O-line blocked their tails off all night."

On the final play call of the game...

"Yeah, I believe in every decision that our coaches make. We had a lot of third downs, a lot of third-and-longs and we weren't successful. The defense was playing their tails off all night. So, if I was in his position, I think I'd have done the same thing. Let our defense go out there and make a play and hope that they do. They didn't end up doing it, but yeah, it's easy to sit back and press the rewind button and make a different decision."

On spreading the ball around to different receivers...

"Yeah, those guys ran really good routes. They caught the ball well and they do week in and week out. I had to focus more this week on banging through my reads, ABC-123, taking what's open. I still have a lot of room for improvement in that department. But we'll come back Sunday and we'll work."

Miguel Mitchell, Arkansas DB

On the message at halftime ...

"Coach emphasized we had them right where we wanted them. You know, we're right there. We were down seven. We just needed to lock in, continue to do our job and come out with some momentum, which I think we did come out of the half pretty hot."

On what he saw for the interception ...

"He [Tennessee QB Georgie MacIntyre] kept staring down his receivers a little bit. So they put me back there and coach was talking all week about just playing with range. So I saw him throw it out there. I honestly didn't think I could get to it, but I made a good play."

Ben Bogle, Arkansas LB

On a different outcome than the last few games ...

"Just really frustrated, you know. I thought we did some good things. Obviously, there's things to clean up. But, yeah, you know, go in tomorrow, learn from our mistakes, build on what we do good and look to continue to get better."

On going back on the field after the late punt ...

"Every time we take the field, our mentality is three-and-out, get the ball back for the offense. That's kind of our mindset and that's all I really have about that."

TENNESSEE QUOTES

Josh Heupel, Tennessee Head Coach

Opening Statement ...

"Proud of our team. It's been a long time since this program has won here. We talked about it during the week and knew it would be a four-quarter ballgame. There's a lot of things we've got to do better in the beginning and middle, parts of the game, but I love how we finished. The guys were resilient, kept competing."

"Defense was lights out in the first half. Offensively, we had some drives, missed a field goal, and some things we didn't execute, just little things. We've got to play smarter and not change the situation. Special teams were solid all day. The third quarter, both sides of the ball don't start as fast as we need to. However, at the end of it, we kept our composure, kept competing and found a way to win. Proud of the group for that. You can see in this league every Saturday's a new season. You have to find a way to be the best team on the field, keep improving and keep on moving."

The 94 yd touchdown drive to win the game ...

"Competitive composure. Just going in and playing the next play. Defense, you know, gets a stop. There's a chess match, you know what I mean? It's going back and forth. We were able to hit some runs, hit a couple of throws and ultimately get in the end zone. Great effort by DeSean, obviously. Collectively, as a group, all 11 did their job on that drive. That's what it takes when it's not going good; it's not typically major things that aren't going good. It's all 11 settled in, doing their job at a normal high level of execution. When it was going good today, that's what we did. When it wasn't, just a little bit off."

On Radarious Jackson's chase down tackle to end the first half ...

"Huge, huge play. It changes the game. It can change your season. It's actually something that, through our experience, we've talked about. We've shown to our players. That's why our offensive guys are going to be involved in tackling at some point during the course of the off-season. It's a big-time play, just continuing to compete. Get a guy down, and it's a three-point play, or seven-point play, right? That ends up negating all of it and it's straight wash walking in at halftime."

On the fashion in which they won ...

"Well, I think they showed that they are resilient no matter what the circumstances. They're going to continue to play and go play the next play. That's why it happened today. So again, proud of our group handling it that way."

Amare Campbell - Tennessee LB

On the third quarter ...

"First half, we obviously came out strong, doing everything we are supposed to. The second half is a brand-new game. Those guys went to their locker room and made some adjustments. We came out kind of flat as a defense I'd say, but that's what comes with the game, adversity. As you can see, we picked it up later in the third and fourth quarter. Just making sure we know the new half is a new game, in a sense, so we've just got to come out playing our game."

On responding after Arkansas took the lead ...

"It's just trusting what we know we can do. Trusting practice, trusting our mindset, and trusting the game plan. Getting back to each other and leaning on each other, one by one, play by play. That's all it was. Everybody was talking to each other, encouraging each other, and we just knew what we were supposed to do. We know what we can do."

George MacIntyre - Tennessee QB

On his first road start ...

"First off, super excited to have my first start today. I think overall we did a good job on offense moving the ball. I think there's things I need to clean up and things the team needs to clean up heading into a big week next week."

On his pass to Braylon Staley ...

"I think that play was huge. You could feel the momentum shifting. I thought Braylon did a good job staying alive. Kind of got into like almost a scramble-drill situation to buy a little time. I just trusted my guy, and he made a play for me."
