ARKANSAS QUOTES

Ryan Silverfield, Arkansas Head Coach

Opening Statement ...

"Let me start by thanking our great fans that showed up tonight. You could see a sea of red throughout the stadium and that speaks volumes to their belief in our players. Tonight's end result speaks volumes to the players' belief in the way we are doing things. We are improving, they believe and we show up to work ... Our guys continue to show the improvement and we found a way in the result. That was a total team win. That win was for the players in the locker room that have worked so hard and have trusted the process. They understand we have to continue to work for all the fans in Arkansas. That was for the entire state. We have a lot of work to continue to do. Anything that needs to be improved upon it is my job as a head coach to continue to do so. For now, we are going to put a smile on our faces and be proud of the work and the complete team win, and go out there and accomplish what we did on the road."

On the offense ...

"We had not found our rhythm due to some self-inflicted wounds with penalties that are inexcusable. We found ourselves behind the sticks. We talked about it all the time that we are not good enough when we have those self inflicted wounds. Then right before half, we were trying to be smart with the time and trying not to give them the ball back, which was huge. In the locker room, regardless of the score, we talked about how it is a blank slate and coming out able to execute. If you look at the third quarter, it certainly was not perfect, but to have 192 yards in the third quarter it shows that we did what we needed to and found a way to execute."

On the running game ...

"I got asked last week why we rotated so many backs and I think they all did a good job. The offensive line played one of their best games all year. I do not think they gave up a single sack all game. When we find ways to challenge it. With Chris Marshall being out, we knew they kept walking up and some of that pressure that they were walking up and blitzing. If we found a way to pick it up and pass the twist off or pick up that blitz it was able to create some seams. So now we are going to the next level and letting them come make the play so instead of no gain, it is a five-yard gain. Everybody did their job in the run game. It was 187 yards that probably could have been 250. We have to continue to find ways to improve it, but it was nice to have that and allowed our offense to get into a rhythm as the game went on."

KJ Jackson, Arkansas QB

On the offense ...

"We played well offensively., Even in the first half we had some drives where we ran the ball pretty well and we had a couple plays that set us back. We had a holding penalty on the first one and on the second drive we had the crackback block that set us back. It was clean if we erase those two plays it would have been a really clean game."

On the offensive line allowing no sacks ...

"The offensive line played an amazing game tonight, running the ball and pass protection. I was super comfortable all day and that was because of them. Kash did a good job stepping up and being the guy to lead that group up front. All those guys were playing all heart and they were being nasty down there. I really enjoyed seeing them work like that."

Antonio Jordan, Arkansas WR

On the win ...

"We have been working on this since summer. It was really nothing to it. We were just going out there and mixing it up and executing like we practice. If one guy goes down coaches expect the others to step up and that is what I did."
